**Arnold Schwarzenegger**  
Governor

July 1, 2005

Dear Truck Owner/Operator:

The California Air Resources Board (ARB) recently sent you a letter stating that your Ford truck needs Low oxides of nitrogen (NOx) Software installed. That letter was sent in error, so please disregard it. In our efforts to make sure everyone in the most recent Department of Motor Vehicles database received notice of the regulation, we inadvertently included some medium-duty Ford trucks that do not need the Low NOx Software. We sincerely apologize for any inconvenience this may have caused you. Please be assured that we have updated our database so it won't happen again.

Sincerely,

Jack Kitowski, Chief  
On-Road Controls Branch

cc: Robert H. Cross  
Mobile Source Control Division

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.*
